Staff number

HenLv specializes in the research, development, production, sales, and solutions manufacturing of high-quality hybrid integrated circuit modular power supplies and new energy products.

The company has been certified by ISO9001:2015 quality management system and ISO14000 environmental management system, intellectual property system. HenLv is the Ningbo large patent enterprise, college student entrepreneurship internship base, engineering technology center, Zhejiang province high-tech enterprise association council member unit, and Chinese supply society member unit. Create a better life, serve smart city, provide security and personalized solutions for many industrial field products. HenLv focus on national high-tech industry and new energy products. We are committed to high-end cutting-edge technology industrial. Our products now fully serve the industry of roads and railways, aerospace, ship and deep-sea ocean exploration, industrial control, medical, lamps, automation, petrochemical industry, security monitoring, the mobile station machine, 5G intelligent household, high-end equipment and high precision instruments and apparatus, IoT communication, electricity, rail transit and industry 4.0 etc.

Application Field

Quality assurance

ISO9001

100+ RoHS

100+ REACH

100+ CE

HenLv establishes and implements a comprehensive quality management system for continuous improvement, 100% full process, strict quality control and testing the process. and has obtained ISO9001, ISO14000 management system certification. Products have obtained CE certification and other global certifications such as REACH, RoHS. To ensure the super high quality of each finished power supply product, it is necessary to ensure the standardization and normalization of various tests such as component selection test, power safety specification test, electromagnetic compatibility (EMC) test, environmental & reliability test, etc.

Enterprise Honor

High-tech enterprise certificate

Certificate of Intelligent Control System for power modules

National Intellectual Property Management System Certification

National Military Standard Certification

HenLv has passed the certification of National Intellectual Property Management System and obtained the certificate of Intelligent Control System for power modules. HenLv is the Ningbo large patent enterprise, college student entrepreneurship internship base, engineering technology center, Zhejiang province high-tech enterprise association council member unit, and Chinese supply society member unit. It was rated as one of the top ten high-quality suppliers in the power industry.

Our advantages

R&D and design capability

Quality control capability

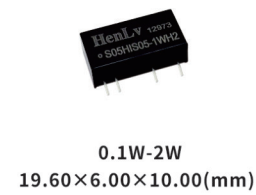

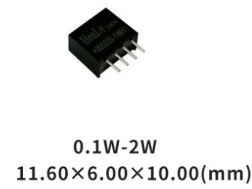

Manufacturing capability

HenLv has always adhered to the service philosophy of "serving with heart and pursuing excellence". It has established a R&D center in Shenzhen, formed a high-tech elite scientific research team, targeted the forefront technology of global power module technology, and comprehensively improved the independent R&D and innovation capability of key core technologies of HenLv power products. It has launched more than 20 new products and more than 60 new models per year and more than 20 patents have been added each year. The R&D investment has accounted for more than 2% of the sales revenue for many years.

DC-DC Power Module (1W-200W)

Application field: Electricity,Industrial Automation System,Medical Equipment,Household Appliances,etc.

Industrial Power Supply (10W-600W)

Application field: Automotive Electronics,New energy,Charging Station,Instruments and Apparatus,etc.

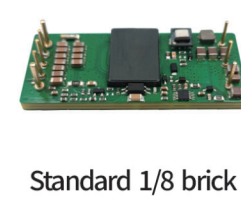

AC-DC Power Module (1W-200W)

Application field: Rail Transit,Aviation,Industrial Automation System,etc.

DC-DC Brick Converter (75W-1000W)

Application field: High-precision Equipment,Electricity,Instruments and Apparatus,Railway,Communication,etc.

Typical Cases

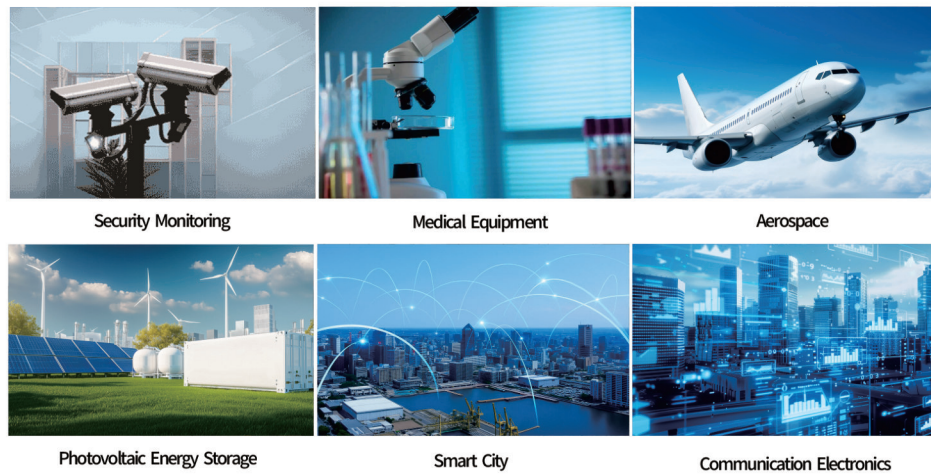

Rail Transit

Multimedia Displays

Automotive Electronics

Global Investment

The above specifications and models are our company's standard products. In fact, products with any parameter values can be designed according to requirements. For detailed information, please refer to the official website of Hengsui Technology

Development history

Change version of "ISO9001:2015 Quality Management System Certification"

Change version of "ISO9001:2015 Quality Management System Certification"

HenLv was rated as a national high-tech enterprise

Was rated as the top ten in the power supply industry in the "Huaxinbang Cup" High-quality supplier

Register "HenLv" trademark

One innovative enterprise with the advantage of powerful independent R&D and intellectual property rights

Won the title of member unit of China Power Supply Society

In 2005, HenLv was founded in the East of the World-Shanghai, China

In 2021, HenLv headquarters building was built

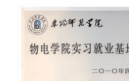

Initiate global investment promotion and promote the process of corporate internationalization

Passed the national intellectual property management system certification

Recognized as Ningbo Science and Technology Enterprise

Establish school-enterprise cooperation with many domestic colleges and universities, and become an internship and employment base for the School of Materials and Electricity

Set up Shenzhen subsidiary, and set up office in Chengdu, Beijing

Our company's products have passed CE, RoHS, REACH and other industry qualification certifications

Headquarters landed in Ningbo, forming an integration of R&D, design, production and sales
