

AC-DC KNX bus power supply. Deticated for smart home, building automation, lighting control, curtain and blinds control, heating and air conditioning systems, security monitoring systems, etc.

FEATURES

- 180 264VAC or 254 370VDC Input voltage
- Operating ambient temperature range: -30 $^\circ\!\mathrm{C}$ to +70 $^\circ\!\mathrm{C}$
- Low standby power consumption, high efficiency
- High I/O isolation test voltage up to 4000VAC
- Output short circuit, over-current, over-voltage protection
- EN62368 safety approved, safety according to EN61558, EN50491
- Bus reset function
- LED indicator for working status, over-load and reset
- The internal integrated choke
- Compact dimensions, Din-rail design, din rail TS-35/7.5 or TS-35/15 mountable
- Over-voltage class III
- SELV
- 10-year life design

The KNX20-22A640, an AC-DC switching power supply, which integrates a choke inside, the output current is connected to the bus through the choke coll, and a set of auxiliary power output is provided. The product is equipped with an LED indicator that indicates multiple operating conditions and a wide operating temperature range that allows the product to be used in a variety of applications. Particularly suitable for use in home and building intelligent control in compliance with the KNX specification.

| Selection | Guide | | | | | | |
|---------------|--|---------------------|---|-----------------------------------|---------------------------|--|--|
| Certification | Part No. | Output Power (W) | Nominal Output Voltage and Current (Vo/Io) | Efficiency at 230VAC (%) Typ.* | Max. Capacitive Load (µF) | | |
| CE | CE KNX20-22A640 19.2 30V/640mA 86 2000 | | | | | | |
| NILL STL. CO. | | | | | | | |

Note: *The efficiency tested at Vo2.

| Input Specification | S | | | | | |
|----------------------------------|----------------------|----------------------|-----|-------|---------|------|
| Item | Operating Condition | Operating Conditions | | | Max. | Unit |
| | AC input | AC input | | | 264 | VAC |
| Input Voltage Range | DC input | | 254 | | 370 | VDC |
| Input Voltage Frequency | , | | | | 63 | Hz |
| Input Current | Input Current 230VAC | | | | 0.25 | |
| Inrush Current 230VAC Cold start | | | | | 45 | A |
| Hot Plug | | | | Unavo | ailable | |

| Output Specificatio | ons | | | | |
|--------------------------|--|-------|------------|--------------|---------|
| Item | Operating Conditions | Min. | Тур. | Max. | Unit |
| Output Current Range | | 0 | | 640 | mA |
| Output Voltage Accuracy | Full load range | | ±5 | | |
| Line Regulation | Rated load | | ±l | | % |
| Load Regulation | Primary output | | ±6 | | 10 |
| | Secondary output | | ±4 | | |
| Ripple & Noise* | 20MHz bandwidth (peak-to-peak value) | | 90 | 100 | mV |
| Hold-up Time | 230VAC | 150 | 200 | | ms |
| Short Circuit Protection | Recovery time <5s after the short circuit disappear. | Const | ant curren | t, long-tern | n short |

Note:

- 1. For additional information on Product Packaging please refer to <u>www.mornsun-power.com</u>. Packaging bag number: 58220078;
- 2. If the product is not operated within the required load range, the product performance cannot be guaranteed to comply with all parameters in the datasheet;
- 3. Unless otherwise specified, parameters in this datasheet were measured under the conditions of Ta=25°C, humidity<75%RH with nominal input voltage and rated output load;
- 4. All index testing methods in this datasheet are based on our company corporate standards;
- 5. We can provide product customization service, please contact our technicians directly for specific information;
- 6. Products are related to laws and regulations: see "Features" and "EMC";
- 7. Our products shall be classified according to ISO14001 and related environmental laws and regulations, and shall be handled by qualified units.
